## Our Immigration System Has Disproportionately Diluted the Quality of Our Educated Voting Public?

The quality of our voting public is critical to the character and quality of our elected officials and how they represent US!

I will open this discussion by challenging our changing time in the dictionary and our encyclopedias. When I was a child several decades ago, liberal meant that I liked a lot of butter on my mashed potatoes. Conservative meant, I must eliminate salt on my potatoes for health reasons. Actually, the suggestion of being conservative was recommended in the Bible as doing everything in moderation, not overly excessive with anything, live within your means, and not beyond your means so that you are not beholding to others. **American freedom is based on a free enterprise economic system giving people the right to establish, run and grow their own independent business for the livelihood of his family.** This is the basics of what free enterprise is, and intended to be the cornerstone of human freedom.

**2018 Election Cycle:** Unlike the definitions referenced above, this election came down to the political definition of Liberals and Conservatives and not the original intent of the words. And, as we all know, the political liberals won. As explained earlier, they won because liberals OUTNUMBERED the conservatives who vetted their candidates based on qualifications. The only way to recover from being outnumbered is for (The silent majority) and millions of American small businesses to engage conservative grassroots education. This mission should also be endorsed by millions of Hispanic small businesses as well. Because, if their compatriots are playing the system simply for social benefits, they are also paying to support illegal immigrant access to the U.S. social security programs. Hispanic small businesses, who have paid their dues into the legal method to access our U.S. free enterprise system are being damaged by their illegal compatriots gaming the system. We can only expect to correct these abuses through grassroots education. American business is based on frugal management based on conservative economic values and management. These businesses have to engage this messaging to those grassroots people abusing the system rather than properly contributing to it. We will never be able to reverse the numbers, unless we engage to CHANGE the numbers through education and integrity.

If you support the premise of this article, you are welcome to distribute it along to your friends. It does provide educational research and website links. Hopefully, items such as this and others can contribute to a better educated voter population and help to improve the quality of our elected officials.

America was founded by immigrants who supported free enterprise and opposed unfair taxes, this struggle has carried on for the past 200 years and looks to be the direction for the next 200 years.

For several decades, the U.S. immigration system has been in management failure due to the politics, and it is time that the public understand the problem and are engaged in its recovery. One of the first things we need to do is understand some of the basics, and they can be found at: <https://numbersusa.com/>. Then, the best explanation is found in a YouTube video produced by Roy Beck, founder of NumbersUSA:

## Immigration Gumballs, Roy Beck

<https://www.youtube.com/watch?v=LPjzfGChGIE&t=261s> Now, we begin to see some reality of our immigration system. For the most part, this 12-minute video highlights the problems, and most people with common sense would agree with its message. Another topic that is introduced today is Chain Migration, which refers to the endless chains of foreign nationals who are allowed to immigrate to the United States because citizens and lawful permanent residents are allowed to sponsor their non-nuclear family members.

It demonstrates media bias when you see any national media coverage of immigration purport their opinion, yet, fail to recommend the well documented research provided by the Immigration Gumballs video referenced above. It is of growing importance that grassroots citizens engage themselves in many public and political “issues” with a research background of such topics, in order to discern when mainstream media is bias. Unless, YOU gather your own research, the media “opinion” is accepted by the general public and the true discernment mislead by the media. We must engage the public to the importance of our own research of our politicians and media.

Chain Migration is the primary mechanism that has caused legal immigration in the U.S. to quadruple from about 250,000 per year in the 1950s and 1960s to more than 1 million annually since 1990. As such, it is one of the chief culprits in America's current record-breaking population boom and all the attendant sprawl, congestion, and school overcrowding that damage Americans’ quality of life, and costs throughout the system with an average immigrant being a laborer rather than a scientist or engineer, which America is in desperate need of such highly educated immigrants. We must improve this immigrant population. This is the reason so many of our manufactures are establishing production facilities offshore, because they aren’t available in the U.S.

After World War II, America experienced another large by immigrants of Christians, Jews (who were persecuted and most from Communist countries with dictatorships) which basically outlawed free enterprise. They immigrated to the U.S. offering freedom, and as part of their immigration testing, they were required to “study” our U.S. Constitution to understand these freedoms. This era of immigrants oftentimes understands the U.S. Constitution better than many native born citizens, and for sure the out of control rampant immigrants entering our country today.

**OUTNUMBERED:** The reason our political dysfunction, lack of civility and inability to establish a common-sense communication has come about because rational dialogue is OUTNUMBERED. In the context of our voting public, today, we have high numbers of people voting for very important representatives to serve on behalf of the public. However, many people today, VOTE on the basis of their political party only, and NOT on the basis of the candidates as qualified representatives. The quality of our political candidates is diminishing as a result of ill-informed voters who now outnumber a voting population who take the ability to evaluate and vet a candidate based on his/her experience and political integrity. Gridlock is a result of stubborn personal positioning (on either side) rather than logic, common sense and deductive reasoning. Terminating ANY discussion at this stage will never result in forward progress. Juries, judges, arbitrators, counselors are all commissioned with resolving “differences” and ALL applications REQUIRE communication.

I hate to be redundant, but, I have to go back to my original dialogue, conservative is an original recommendation in the bible. The heavy lift is to help a liberal mindset “recognize” the original intent of conservative principals rather than a “political position.” The misrepresentation of these terms is the reason for the steadfast opposition between them, not the actual meaning of the words. Again, “I have to be conservative with my salt because it is a danger to my health”, therefore, I will use very little. People with a conservative mindset have to take on the challenge of inviting the liberal mindset to an open dialogue about each position. Neither position should object to this as being education.

As with any analysis, there are percentages of “numbers” which represent a portion of the whole of any topic. If you take all liberals as a group, a “percentage” of them are actually “conservative liberals”, may not be a large percentage, but, it is sure to exist. I know several Hispanic people who legally immigrated from Mexico and the Philippines to America. They started out just like any other American citizens, working, then eventually accumulating (usually through conservative management) enough funds to start their own business. And, eventually, the American dream of free enterprise ownership. The irony is that there are many immigrants who have come to America, applied their common sense values to establishing a business and achieved success. We need these groups of immigrants to teach those who live off from government support system to step up to the plate and teach a plan for self-support. Immigrants know how to game the system through social security services, food stamps, multiple children which are subsidized by the social security system, etc. The original design of the social security system was to provide assistance to people in retirement a supplemental income for their retirement. Social security is no longer solvent because of abuse by millions of immigrants “taking benefits” MORE than paying into the system for 60 years.

Correction from social misdirection has to come from within those organizations. For centuries we have had radical factions within Christians, Jews, Muslims, the Catholic church scandal, etc. Again, all groups have their “percentage” of RADICALS. These factions have to be engaged and/or eliminated by their parent organizations, not political establishments. Outside engagement should be directed to “parent organizations” in supporting them to resolve their radical operatives within. Any direct engagement from an outside source becomes a politically invasive engagement and fosters resentment by the group as a whole.

**UNIONS:** Traditionally, the union movement strongly supported every legislative initiative in Congress to restrict immigration enforce existing immigration laws. Movement leaders knew that fluctuations in union membership were inversely related to prevailing immigration trends. Today, the AFL-CIO has turned its back on U.S. workers by endorsing illegal immigration & open borders. More than likely, because they are able to unionize large numbers of immigrants into the trade unions expanding their union numbers.

## **Illegal Immigration now outnumbers all who migrated after World War II**

Illegal immigrants now outnumber all of America's legal immigrants, even from after the 2<sup>nd</sup> WW. Italians, French, Germans, Austrians, etc. are all OUTNUMBERED and losing their voice in today's numbers.

### **E.g. U.S. Holocaust Museum; Holocaust Encyclopedia IMMIGRATION TO THE UNITED STATES**

The United States had no designated refugee policy during the Nazi period. It only had an immigration policy. Those escaping Nazi persecution had to navigate a deliberate and slow immigration process. Strict quotas limited the number of people who could immigrate each year.

Potential immigrants had to apply for one of the slots designated for their country of birth, not their country of citizenship. After Great Britain, Germany had the second highest allocation of visas: 25,957 (27,370, after Roosevelt merged the German and Austrian quotas. The total allowed was approximately 153,000.

Though at least 110,000 Jewish refugees escaped to the United States from Nazi-occupied territory between 1933 and 1941, hundreds of thousands more applied to immigrate and were unsuccessful.

We must keep our Electoral College in order to maintain the voting equality of individual states. In the graph below, 42 "states" have a population number LESS than Los Angeles County, CA

**THE STATES IN BLUE HAVE A SMALLER POPULATION THAN LOS ANGELES COUNTY**

**THE ELECTORAL COLLEGE ENSURES THAT THEY HAVE THE SAME VOICE AS THE COASTAL ELITES**

**DO WE HAVE IMMIGRATION UNDER CONTROL? NOT HARDLY!**

**THINK ABOUT IT!**  
**Do we need a WALL?**  
**Consider the following**

It's easy to dismiss individual programs that benefit non-citizens until they're all put together and this picture emerges. Someone did a lot of research to put together all this data. Often these programs are buried within other programs making it difficult to find each of them.

The following are **14** reasons illegal immigrants are making our government public services programs unsustainable. Included are the URL's for verification of all the statements.

**ASK FACTCHECK**

Cost of Illegal Immigrants: By Justin Bank

Q: Do illegal immigrants cost \$338.3 billion dollars a year? More than the Iraq war?

A chain e-mail that makes this claim is loaded with errors and misleading assertions. Published studies vary widely but put the cost to government at a small fraction of that total.

After checking a couple of other sources, it may be safer to state this as “half true”

## **\$168-Billion**, which is more than a small fraction.

1. \$11 Billion to \$22 billion is spent on welfare to illegal aliens each year.

Verify at: <http://tinyurl.com/zob77>

2. \$2.2 Billion dollars a year is spent on food assistance programs such as food stamps, WIC, and free school lunches for illegal aliens.

8. \$90 Billion Dollars a year is spent on illegal aliens for Welfare & social services by the American taxpayers.

Verify at: <http://premium.cnn.com/TRANSCRIPTS/0610/29/ldt.01.html>

9. \$200 Billion Dollars a year in suppressed American wages are caused by the illegal aliens.

Verify at: <http://transcripts.cnn.com/TRANSCRIPTS/0604/01/ldt.01.html>

10. The illegal aliens in the United States have a crime rate that's two and a half times that of white non-illegal aliens. In particular, their children, are going to make a huge additional crime problem in the US

Verify at: <http://transcripts.cnn.com/TRANSCRIPTS/0606/12/ldt.01.html>

11. During the year of 2005 there were 4 to 10 MILLION illegal aliens that crossed our Southern Border also, as many as 19,500 illegal aliens from Terrorist Countries. Millions of pounds of drugs, cocaine, meth, heroin and marijuana, crossed into the U. S from the Southern border.

Verify at: Homeland Security Report: <http://tinurl.com/t9sht>

12. The National Policy Institute, 'estimated that the total cost of mass deportation would be between \$206 and \$230 billion or an average cost of between \$41 and \$46 billion annually over a five-year period.' Verify at:

<http://www.nationalpolicyinstitute.org/pdf/deportation.pdf>

13. In 2006 illegal aliens sent home \$45 BILLION in remittances back to their countries of origin.

The total cost estimated **\$168 BILLION DOLLARS A YEAR!**

This will continue until such time that our grassroots public, legal, & illegal understand that "we" can only correct OUR immigration problem by engaging our ELECTED OFFICIALS to fix it, or find another career!
